PINNACLE SL600

HARMAR'S MOST COMPACT STAIR LIFT

A STEP ABOVE

The Pinnacle SL600 has earned its name and reputation for standing above the rest. Design, form, and function come together to make Pinnacle reliable, durable, and the most sought after stair lift available.

What makes Pinnacle different? It's what you don't see, the patented helical worm gear and reinforced nylon polymer gear rack. This drive system eliminates maintenance, and provides you with savings on lower energy bills and delivers a smooth ride.

- Just 10 ½" wide when folded
- Ergonomic control switch
- No lubrication required
- Retractable seat belt

CLEAR WALKWAYS

Harmar's exclusive automatic and mechanical folding rail (optional) removes obstructions and trip hazards at the lower landing area. Its operation is automatic, the user does not need to stop or have someone else assist. And since it's mechanical, there are no additional switches or controls.

PREMIUM PERFORMANCE YOU DESERVE

I couldn't be happier with the Pinnacle. I'm so glad I made this choice for my home. I feel safe going up and down the stairs again, and it's never in the way for my grandkids!
